

DESCRIPTION

DREWJET 350 II is a high-pressure system that delivers excellent cleaning, maintenance, and surface preparation results. It is an electrically driven water-washing machine with a triple ceramic plunger and a maximum pressure of 350 bars, suitable for challenging cases.

DREWJET 350 II has a stainless steel frame for optimal onboard ship use and strong resistance to the harsh marine environment.

APPLICATION & USE

DREWJET 350 II is a high-pressure washer with a 20 LPM pump designed to remove challenging residues like thick rust, solidified cement, and greasy residues from cargo hold to deck areas. Combined with sandblasting kits, it is the optimal solution for paint removal to bare metal and surface preparation for further processing.

Before use, please carefully read the chapter “Before Starting the High-Pressure Water Cleaning Machine” in the manual. According to the instructions, supply the machine with the proper power and water and carefully connect the hoses and cables to avoid leakages.

Turn the gun down before pressing the trigger and preserve a 5-10 cm distance between the nozzle and the surface while spraying. After every use, please rinse the machine and circulate fresh water to remove any salt that may remain inside or outside the machine for a long service life.

Do not operate the machine if a damaged part/component needs to be changed. The machine is for professional use only and should be used by trained personnel. Please follow all the instructions during operation. For maintenance, follow the manual’s instructions and use only genuine spare parts to ensure long service life.

TECHNICAL SPECIFICATIONS

Max Pressure (bar):	350
Power Supply (Volt/Hz/Amp):	440/60/32
Max Flow (LPM):	20
Engine Power (kW/HP):	11/15

FEATURES

- Stainless steel frame
- Pump with triple ceramic plunger
- Pump with 20LPM Max Flow
- Heavy duty construction

NOTE: Always wear the appropriate personal protective equipment when using this product.

DIMENSIONS

	PACKAGE	MACHINE
Length:	130 cm	95 cm
Width:	96 cm	66 cm
Height:	105 cm	66 cm
Weight:	184 kg	129 kg

It comes with a spray gun, 80 cm lance, flat nozzle, 10 m HP hose extension, and 5 m electric cable (PCN 9802019).

SUGGESTED ACCESSORIES

9808017	Hose Extension 3/8" M22, 20m (Up to 5x)
9807019	Electrical Cable Extension, 20m (Up to 2x)
9900011	Turbo Rotating Nozzle 350bar
9896012	DREWJET Sandblasting Kit

BENEFITS

- Manual pressure adjustment for easy operation
- Solid tires for optimum protection
- Third swivel wheel for easy handling
- Branded components' makers
